Meeting Motions / Actions and Summary of Discussions:

The minutes of the 1/23/14 meeting were accepted.

Selectmen Todd Johnson and Scott Wilson provided a general update on Route 38 corridor improvements based on meetings and discussions with MASSDOT. They expressed that they were less than satisfied with the state's responses. The current commitment from the State is only from the Lowell line to Pike Street. The selectmen did say that they were looking to resources through the Middlesex Sheriff's office to provide some clean up assistance to route 38 and other designated sites in the town in the April-June time frame. Additionally, Todd noted that some seasonal employees are being asked for in the budget to help with clean up such as the committee is requesting. Additional outreach is planned by the Selectmen to the local delegation and to see if any Ch 90 monies can be made available.

They suggested that the Committee meet with the Town manager to list priorities and present ideas. Jackie will plan to meeting with Mr. Montuori. Todd also gave suggestions how to start to get line items in the budget for the committee. It was suggested that a meeting with Brian Gilbert and Steve Sadwick would be beneficial.

The committee agreed to evaluate each mile in the town and identify what needed attention. Dan Elliman suggested breaking the project up using Google Earth and that he would embark on that. Paige will connect with the Assessor's office to determine mile by mile ownership of parcels.

The committee then watched a slideshow of the memorials and islands in the town which members had photographed.

The meeting adjourned at 8pm with an agreement to continue agenda items at the next meeting ncluding review of Dan's website for addressing community projects.

Meeting was adjourned at: 8:00pm
