**PLEASE PICK
UP AFTER
YOUR PET**

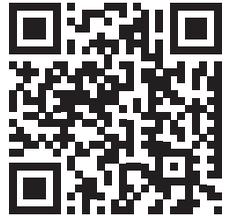

HELP KEEP THE TOWN'S STORMWATER CLEAN!

Remember to always pick up after your dog and only dispose of the waste in the trash. Never dispose of pet waste in the town's grated catchbasins or dispose of waste in a wetland or wooded area. Dog waste can be a major contributor of stormwater pollution that can degrade water quality. During snow melt and rainfall, pet waste left on lawns, trails, and sidewalks washes into the town's grated catchbasins, wetlands, stream and rivers. The pet waste and the pathogens it contains (nutrients, bacteria, parasites, and viruses) end up flowing directly into streams, wetlands and rivers where they can harm human health, wildlife and the environment.

*Always Remember: **Only Rain in the Drain***
