EPA Will Expediently Review New Science
on Fluoride in Drinking Water | US EPA
epa.gov

I am writing in support of removing fluoride from our drinking water in Tewksbury. It has been a controversial topic for many years, but there is mounting evidence that indicates that fluoride is harmful when ingested, and has been linked to reduced IQ in children. Please let me know what I can do to be helpful in advocating for no more fluoride in our water in Tewksbury.

Warm regards,

Sandra Campo
