6:00-8:00 P.M.
Tewksbury Public Library

Hosted by the Town of Tewksbury and the Northern Middlesex Council of Governments

AGENDA

1. Welcome and Introductions – Steve Sadwick, Assistant Town Manager, Town of Tewksbury

2. Forum Overview and Background – Jay Donovan, Assistant Director, NMCOG
   • Five-Year Comprehensive Economic Development Strategy (CEDS)

3. Strengths, Weaknesses, Opportunities & Threats (SWOT) Analysis – Jay Donovan, Assistant Director, NMCOG
   • What are the strengths and weaknesses of doing business in the Greater Lowell region?
   • What opportunities should communities in the Greater Lowell region take advantage of to stabilize and expand private investment?
   • What future threats do you see to the business community in the Greater Lowell region?
   • Prioritizing SWOT responses through colored dots

4. Next Steps and Future Opportunities for Public Input – Jay Donovan, Assistant Director, NMCOG

5. Closing Remarks – Steve Sadwick, Assistant Town Manager, Town of Tewksbury

Funded through a grant from the
Economic Development Administration (EDA), U.S. Department of Commerce
What is a Comprehensive Economic Development Strategy (CEDS)?
What is a CEDS and what are the benefits of participating?

- The CEDS is a regional economic development strategy that is developed through grassroots planning guided by these SWOT sessions; and

- The CEDS summarizes the economic resources of the region, lays out the economic development vision for the Greater Lowell region, identifies goals and establishes a Five-Year Action Plan with priority projects for the region.
What is a CEDS and what are the benefits of participating?

A CEDS is required by the Economic Development Administration (EDA) in order to maintain the region’s eligibility for EDA stimulus, public works, revolving loan and technical assistance funding; and input from you and other stakeholders, residents, business owners and property owners will help shape regional projects and priorities for the benefit of every community.
Required CEDS Components

- **Summary Background**: A summary overview of the economic conditions of the region.

- **SWOT Analysis**: An in-depth analysis of regional strengths, weaknesses, opportunities and threats.

- **Strategic Direction and Action Plan**: Built on findings of the SWOT analysis, these lay out the vision, goals, objectives, and steps to achieve priorities.

- **Evaluation Framework**: Performance measures used to evaluate the implementation of the CEDS and impacts on the regional economy.

- The CEDS must also incorporate the concept of **Economic Resilience** – the ability to avoid, withstand and recover from economic shifts, natural disasters, man-made disasters, and the impacts of climate change.
# Greater Lowell Comprehensive Economic Development Strategy Timeline

**November 2019**

What is a SWOT Analysis?

How will your input be used?
Strengths, Weaknesses, Opportunities and Threats (SWOT) Analysis

- SWOT analysis is a tool utilized by private industry and public agencies at the outset of a planning process.
- Designed to capture your personal thoughts about economic development issues.
- There are no right or wrong answers, and everyone is encouraged to express an opinion.
- Your response will be recorded on a flip chart.
What happens next?

- At the conclusion of the SWOT Analysis, there will be a 15 minute break.

- During this time, you will be asked to place color coding dots on each flip chart to prioritize the ideas that you feel are most important.

- NMCOG staff will tally the results and summarize the findings for the CEDS Committee.
How will your input be used?

- Results of this SWOT session, along with two other SWOT sessions and existing local planning documents, will be used to guide the development of Goals and Objectives for the CEDS.
Color Coding Priorities

1\textsuperscript{st} priority = RED
2\textsuperscript{nd} priority = GREEN
3\textsuperscript{rd} priority = YELLOW
4\textsuperscript{th} priority = BLUE
