SECTION 8 Self-explanatory.
SECTION 9

From the standpoint of the applicant, this is the most important section of this application. This section must describe certain reasons as provided in the State’s Zoning Act, Chapter 40A, Section 15 of the General Laws, why the Zoning Board of Appeals should grant relief to the applicant. Primarily because of the lack of knowledge of the law, quite often an applicant for relief appears before the Zoning Board of Appeals ill prepared to surmount the legal obstacles relating to the applicant’s problem.

The Zoning Act clearly sets forth three (3) requirements which must be met in granting a variance from relief. The applicant must show that:

1. Special conditions affecting a particular parcel of land or building but not affecting generally the District in which it is located created a hardship to the property.

2. The granting of a variance will not be detrimental to the public good.

3. The granting of a variance will not nullify or substantially derogate from the intent and purpose of the Zoning By-Laws.

SECTION 10 -

It is the responsibility of the applicant to provide names and addresses of all legal abutter to the premises affected (the term legal abutters refers to adjoining property owners including the properties across the street,) and to provide the names of other abutters that own properties that abut the previously described abutters.

In addition, the applicant must, at their expense, provide the envelopes as requested to the Zoning Board of Appeals at the time of submittal.
EXAMPLE

1. **LEGAL ABUTTERS:** Any properties that touch the property in question, including the properties across the street. For these purposes, the center of a street constitutes a property line. In the example, they are those properties that are represented by an “X”.

2. **OTHER ABUTTERS:** Any properties that adjoin legal abutters. In the example, they are those properties that are represented by an “O”.

Property in question represented by an "**"
